SUMMARY

Quantitative Economics graduate with a focus in econometrics and statistics, joining JPMorganChase in Consumer Banking in October 2026. Prior experience across financial operations, KPI reporting, and quantitative research, including Excel-based financial documentation, operational dashboards, and econometric analysis of large datasets.

EDUCATION

Queens College, City University of New York (CUNY)

New York, NY

Bachelor of Science in Quantitative Economics | Focus: Econometrics and Statistics

Graduated: May 2026

- Carole & Norman Barham Family Scholarship | Dean's List: Spring 2024, Fall 2025

PROFESSIONAL EXPERIENCE

JPMorganChase

New York, NY

Incoming Associate Banker | Consumer Banking

Starting October 2026

- Will serve consumer banking clients across account servicing, banking transactions, and digital banking
- Will identify client needs and connect clients with bankers and specialists within branch controls and procedures

Kassam Trading Company

New York, NY

Business Operations & Finance Intern

Aug 2025 - Oct 2025

- Processed 30+ checks and payment transactions, maintaining Excel-based financial documentation and transaction records
- Monitored company expenses and outstanding payments, flagging discrepancies and improving visibility into financial activity
- Coordinated requirements and follow-ups across 8+ client meetings with domestic and international buyers

Runwei

New York, NY

Business Development and Operations Intern

Mar 2025 - May 2025

- Built Excel KPI dashboards used for operational reporting and pipeline monitoring across the team
- Redesigned market research and outreach workflows using AI tooling, increasing qualified leads 25%
- Evaluated partnership fit and supported outreach that generated engagement from 15+ organizations

ArtEast

New York, NY

Data Analyst Marketing Intern

Jul 2024 - Aug 2024

- Consolidated 3 years of fragmented survey data into structured Excel datasets for trend and cohort analysis
- Analyzed 1,000+ survey responses to identify engagement drivers and reported findings to stakeholders

PROJECTS

Remote Work and Wage Dynamics | Python, linearmodels, PanelOLS

Jan 2026 - May 2026

- Analyzed 544K+ BLS occupation-MSA records using difference-in-differences and fixed-effects models to measure how remote work affected wages
- Cleaned and validated the dataset before estimation, then summarized results and their limitations in a written report

CPS Wage Analysis | R, OLS Regression

2025

- Estimated OLS regression models with robust standard errors on 115,836 Current Population Survey records
- Tested how education, region, gender, race, and other demographics relate to wages, summarizing findings in writing

LEADERSHIP AND INVOLVEMENT

President & Treasurer | Queens College Cricket Club

Jan 2024 - May 2026

- Managed \$2K+ annual budget and secured \$1.5K+ in student government funding through budget proposals

Event Leader | ALPFA Queens College
